**Subject:** RE: Antidegradation evaluation on the Leavenworth National Fish Hatchery  
**Attachments:** 061517 LNFH Antidegradation Evaluation.pdf

Hi David, Sanjay, Mark, and Breean,

Attached above is a revised antidegradation evaluation for the Leavenworth National Fish Hatchery draft NPDES permit. This is a high priority for EPA, so we appreciate your efforts in providing feedback on the May 26, 2017 antidegradation evaluation and on moving forward to complete the preliminary certification. As discussed in a conference call with Sanjay and Breean on May 16, 2017, our letter on May 26, 2017, and in discussions among EPA and Ecology senior managers, Ecology agreed to complete a preliminary 401 certification by June 30, 2017 or let EPA know if there were delays.

Breean and I are scheduled to talk next Wednesday, June 21. If there are any questions beforehand, please don't hesitate to contact me.

Sincerely,  
Jenny Wu

Hi David, Sanjay, Mark, and Breean,

Attached above is the antidegradation evaluation for the Leavenworth National Fish Hatchery draft NPDES permit. We look forward to working with you in getting the preliminary 401 certification for this permit. If you have any questions, please feel free to let me know.

Sincerely,  
Jenny Wu
